ABSTRACT

Man deliberates. He has to deliberate. He is bound to deliberate. It is a daily drama. Thus, man willy-nilly deliberates infinite times from cradle to coffin. Domestic violence is the outcome of deliberation or deliberation is the outcome of domestic violence or both simultaneously. Both wise and shrewd deliberate. But a fool seldom deliberates. It knows not to deliberate. It cannot deliberate due to lack of tact. The fool suffers due to lack of omission of tact. It deliberates when not to deliberate, and deliberates not when to deliberate. Thus it experiences loss in both ways. This is true everywhere in every age.

Keywords: Deliberate, careful, discussion, intentionally, negative, derogatory

INTRODUCTION

Creative writing is based more on manifestation rather than on expression. It does not inform rather reveals, so this style of writing bears no reference. The best creative writing is critical, and the best critical writing is creative. The present article is the outcome of creative writing meant for lay readers. As such free style is the methodology adopted so that pleasure of reading can be enjoyed by the readers in general. As you know well that Francis Bacon (1561-1626), the immortal essayist, wrote many essays and notably, Of Love, Of Friendship, Of Ambition, Of Studies, etc. The myriad-minded genius rightly pointed out that all the words of the dictionary can be the themes of essays one can write. But little has been done, in this regard since his death, in order to finish his unfinished monumental works. In fact Bacon's way of presentation i.e., his unique style kindled the imagination already in me and encouraged me as well to write essays, in the light of creative writing, thus to get relief through Catharsis.

Deliberation is of various types. It differs from person to person with different forms and features coupled with different degrees and dimensions as well.

Deliberation is not spontaneous. Rather it is the control of emotion or controlled emotion. As such it is a hindrance for enjoyment. Deliberation is a personality trait. Trait is a matter of inheritance and influenced by culture. Goodness of human being uses it positively and evil mind applies it for evil purpose. Deliberation may be compared with fire. Fire may light a lamp. Also it may destroy the house of the opponent. It is human whims that directs, dictates and controls its use as well as its misuse.
